Setup
Each player gets 3 copper. Decide the active player and give them the Skill dice. Player to the right gets the House dice. Each player other then the active player gets a Threat die. In a 2 player game, take 2 threat dice.

1. Roll
House dice are rolled and then set aside. Active player rolls Skill dice at the same time as other players roll their Threat dice.

House

Round 1 - 4 House Dice
Round 2 - 5 House Dice
Round 3 - 6 House Dice

Copper 1  2  3
Silver  5  5  5
Gold   10 10 10

Skill

Fight  Stealth  Pick  Wild  Fortune  Block

Threat

Hourglass  Arrow  Block

2. Resolve Threat
Starting counter-clockwise from the Active Player.
Arrow - Steal 1 treasure from any player whose dice is completely or partially in front of the line.
Catch/Block - Block all arrows, no matter where the catch die lands.
Hourglass - Move to the House die area. Once 4 Hourglass dice are achieved, the active player is caught and turn ends. No treasure is collected.

3. Defeat The House
Skills - 1 Pick Beats 1 Lock and 1 Sneak/Fight beats 1 Guard/Resident.
To beat more then 1 Guard or Resident, you must use all of the same type. Ex: You can’t Sneak past 2 Guards and Fight the 3rd Guard, but you can Sneak past the 3 Guards and Fight the 2 Residents.

4. Push Your Luck
If you have beaten all of the House dice, then you can go to scoring, otherwise you can roll any of your skill dice. Any skill dice not rerolled can be moved to any part of the play area. Unused Fortune dice cannot be saved.

Redistribute Threat dice, keeping Hourglasses with the House. It is possible certain players will not have a Threat die.

Play continues until the active player beats the House, chooses to stop, or gets Caught with 4 Hourglasses. Play passes to the left, and they now control the House.

4. Push Your Luck
If you have beaten all of the House dice, then you can go to scoring, otherwise you can roll any of your skill dice. Any skill dice not rerolled can be moved to any part of the play area. Unused Fortune dice cannot be saved.

Redistribute Threat dice, keeping Hourglasses with the House. It is possible certain players will not have a Threat die.

Play continues until the active player beats the House, chooses to stop, or gets Caught with 4 Hourglasses. Play passes to the left, and they now control the House.

Scoring
If you choose to stop or beat the House, collect 1 treasure for each House die you have defeated.

If you beat all of the challenges of the House, collect a bonus:

Four die House:
1 bonus treasure
Five die House:
2 bonus treasure
Six die House:
3 bonus treasure

If you beat the House without fighting anyone, collect 1 bonus.

Fortune - Target Fight, Sneak or Wild. Will boost 1 die in front or partially touching it, increasing it to as if you had rolled 4 of that die. (Including saved dice) More then one fortune can target the same skill. Two Fortunes would boost it to 8, three to 12, etc. Fortune dice will stay with the skill it is boosting if it is used.

Run Away - If the active ninja does not have the skills to beat the house, it can run away and score what it was able to defeat. See Scoring.

Scoring
If you choose to stop or beat the House, collect 1 treasure for each House die you have defeated.
